

HEMOCYL

The most effective
hemorrhoid treatment

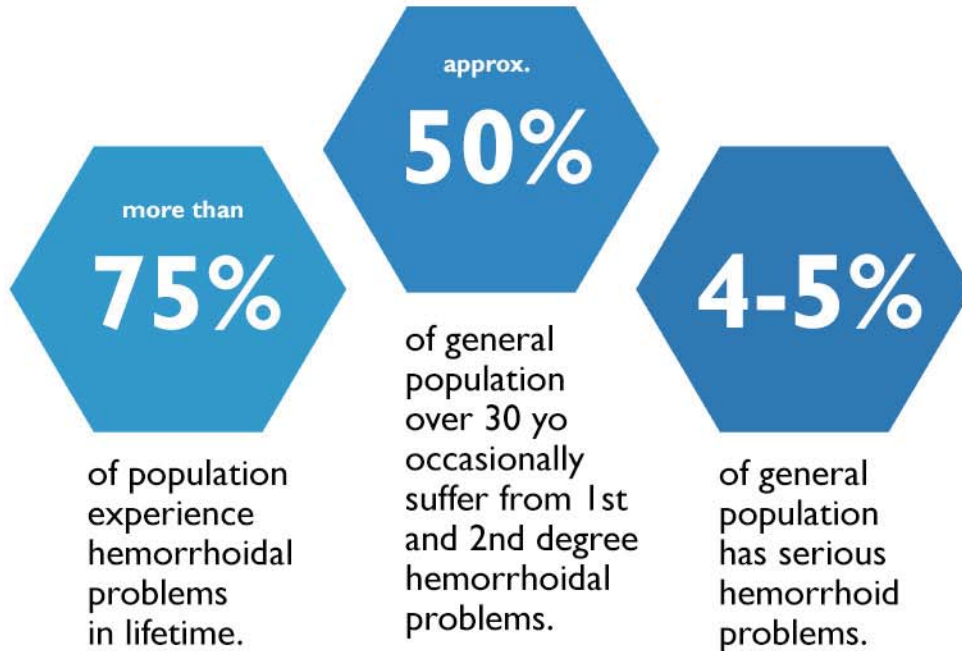

ABOUT HEMORRHOIDS

Hemorrhoids

one of the most common diseases in the world today.

HEMORRHOIDS (PILES)

Hemorrhoids are swollen or inflamed vascular structures in the anal canal.

There are internal and external hemorrhoids.

Internal hemorrhoids usually present with painless rectal bleeding while external hemorrhoids present with pain in the area of the anus.

HEMORRHOIDS CLASIFICATION

04
GRADE

HEMORRHOIDS PROTRUDE FROM THE BODY ALL THE TIME. IF PUSHED BACK IN, THEY WILL SLIP BACK OUT AGAIN. HEMORRHOIDS THIS SEVERE NEED TO BE SEEN BY A DOCTOR, THEY BLEED MUCH MORE EASILY, ARE PRIME TARGETS FOR INFECTION, AND MAY DEVELOP INTERNAL BLOOD CLOT, KNOWN AS THROMBOSIS.

03
GRADE

HEMORRHOIDS PROTRUDE FROM THE ANAL SPHINCTER DURING A BOWEL MOVEMENT AND DO NOT RETRACT, BUT WILL STAY INSIDE IF PUSHED BACK. GRADE 3 HEMORRHOIDS HAVE A TENDENCY TO BLEED MORE OFTEN AND ARE GENERALLY EASIER TO INFLAME.

02
GRADE

FIRST STAGE OF HEMORRHOIDAL PROLAPSE, WHICH IS TO SAY THAT THEY PROTRUDE FROM THE ANAL CANAL DURING A BOWEL MOVEMENT BUT RETRACT BACK UPON COMPLETION OF SAID BOWEL MOVEMENT.

01
GRADE

INTERNAL HEMORRHOIDS DO NOT PROTRUDE FROM THE ANAL CANAL, THOUGH THEY MAY CAUSE OTHER SYMPTOMS SUCH AS BLEEDING OR ITCHING.

Currently available hemorrhoid treatments

EXTERNAL APPLICATION

Topical ointments have temporary effect (few hours), application is inconvenient (they should be frequently applied 2-3 times a day on average). They don't provide complete disappearance of symptoms and in most cases, they can only treat external hemorrhoids.

SURGERY

surgical procedures are followed by painful recovery and beside its price (average 1300 EUR in EU), most patients (around 70%) experience hemorrhoid problems in the future again.

ABOUT HEMOCYL

WHAT IS HEMOCYL?

Hemocyl is the most effective natural hemorrhoid treatment

- ▶ Oral capsules produced in GMP certified facility in European Union
- ▶ Packaging – Hemocyl 28 capsules
- ▶ Easy to use supplement that requires absolutely no contact with affected areas

HOW TO USE HEMOCYL?

Hemocyl comes in the form of easy to use oral capsules

- ▶ taking two capsules per day (orally) over the course of 14 days
- ▶ usually 30 minutes before breakfast with a water or yogurt

RESULTS

Hemocyl provides fast results. The complete disappearance of all symptoms is possible after just 7 days of treatment.

- ▶ initial relief can be felt after only 72 hours
- ▶ long lasting results – on average six months with just one 14 days course (28 capsules)

HEMOCYL

HOW IT WORKS

There are three main active ingredients in Hemocyl: parts of herbs Berberis vulgaris, Hamamelis virginians and Cichorium intybus which are specially treated to ensure its efficiency.

Synergy of active ingredients produce anti-inflammatory effect and improve vein draining through portal blood circulation. It decreases congestion in rectal venous plexus and lower abdomen through an increase of blood flow to the liver.

Berberis Vulgaris

Cichorium intybus

Hamamelis Virginians

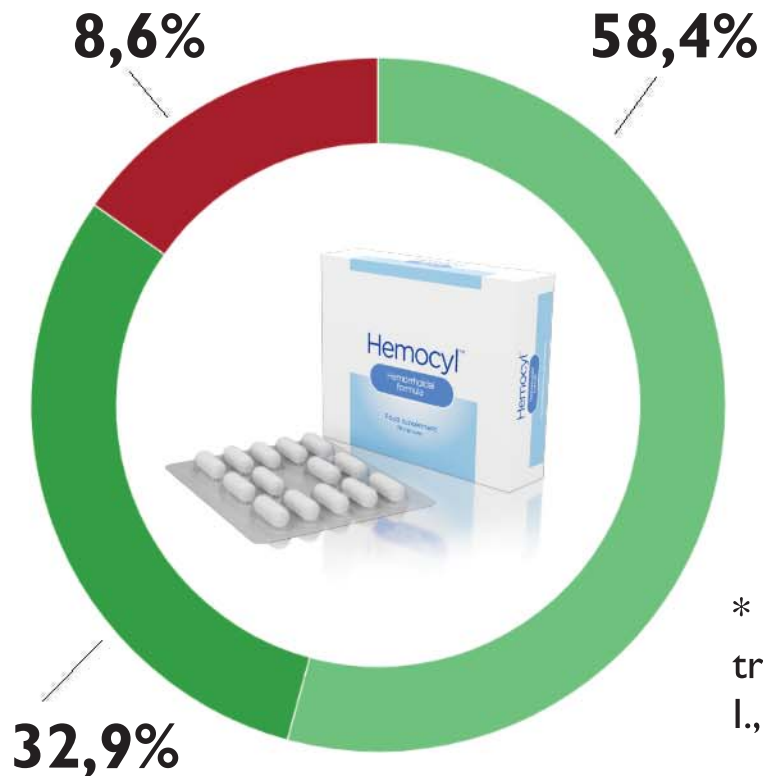

HEMOCYL PERFORMANCE PROVEN THROUGH OBSERVATIONAL STUDY

252
respondents

male: 140
(56%)

female: 112
(44%)

RESULTS

- DISAPPEARED
- DECLINED
- UNCHANGED

* results after Hemocyl treatment of responders with I., II. and III. grade hemorrhoids

STUDY CONCLUSION

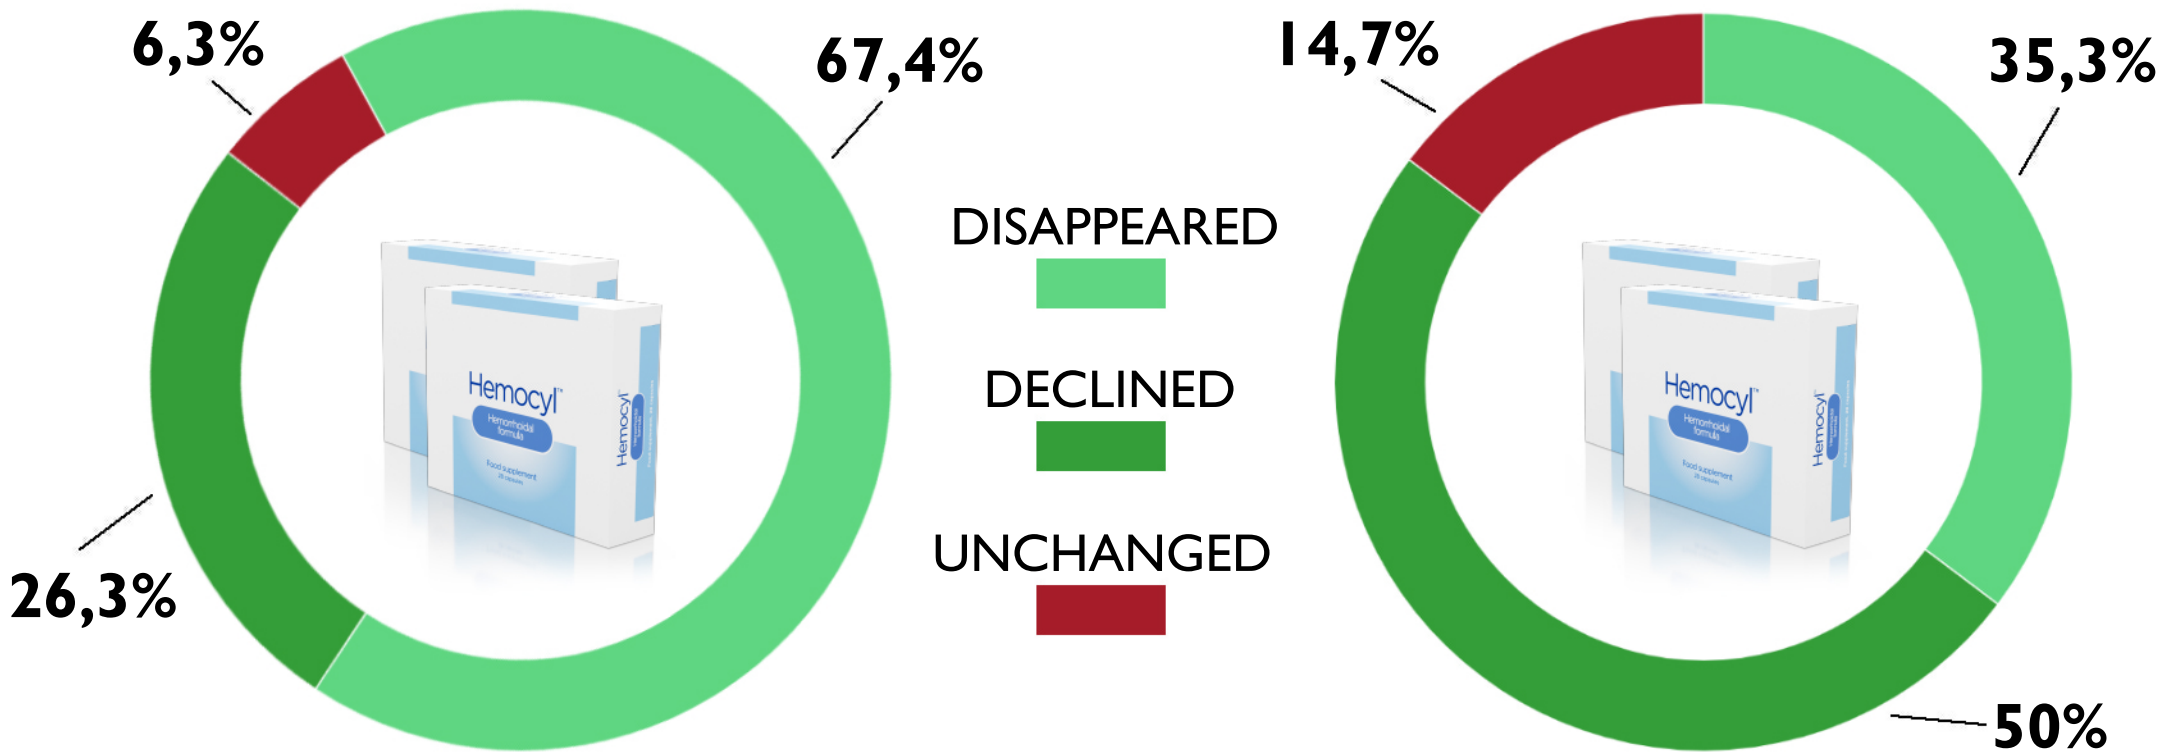

91,3% of patients felt improvement or complete regression of symptoms after Hemocyl treatment, most of the patients did not need any further treatment. Study proved that Hemocyl capsules are highly efficient and safe.

III. GRADE

LOCAL TREATMENT

Cremes used locally on anal area can treat outer hemorrhoidal problems mostly and all products used locally on anal area just treat symptoms - they are not solving cause of hemorrhoids.

Because of that, hemorrhoidal symptoms will progress as time goes by and in most cases patients will suffer more and more no matter what creme or ointment is used.

HEMOCYL- DEALS WITH CAUSE OF HEMORRHOIDS

Hemocyl directly addresses the cause of hemorrhoids and most patients can reverse hemorrhoidal problems if they use Hemocyl as prophylaxis once or twice a year after solving problem with initial Hemocyl treatment. This is a great asset for doctors because they can reverse progression of illness for most of their patients.

RESUMÉ OF HEMOCYL KEY BENEFITS

01

HIGHLY EFFICIENT

significant improvement or complete disappearance of all symptoms in most users.

02

EASY TO USE

capsules taken orally.

03

VERY FAST ACTING

most users experience significant improvement or complete withdrawal of all symptoms in only 3-5 days.

04

LONG LASTING RESULTS

at least six months on average.

05

NO REAL COMPETITION

Hemocyl is the most efficient hemorrhoid treatment.

06

UNDEVELOPED CATEGORY

low marketing investment due to poor efficiency of other available treatments.
